

EASY POOL CARE® **CHLORINE SHOCK**

Instructions for use

Initial use: **Add 2kg for every 100m³ of water.**

For maintenance: **Add 1kg for every 100m³ of water, once every 20 days.** Also, do a chlorination shock at the beginning of each season, every time you change the water in your pool and when the water loses its crystalline appearance. Add it to the pool water completely dissolved in a bucket or directly to the pool filters or skimmers. After using the product, the pool can be used after 6 hours and if the free chlorine value returns to normal 1–3ppm levels.

Composition: Troclosene sodium, dihydrate.

Do not mix it with other products. Preferably used before 5 years from the date of purchase.
