

EASY POOL CARE®
PH MINUS

Composition: NaHSO₄, Sodium hydrogen sulfate

CAUTION: Do not mix it with other products. To be used before the expiry date of 2 years from the date of purchase.

Instructions of use

The ideal pH should be maintained between 7.2 and 7.6. **Add 1 kg pH minus for every 100 ml of water to reduce the pH by 0.1 degree.** Pour the powder into the baskets or, for a more immediate action, dissolve it in a bucket of water and pour around the perimeter of the pool. Recycle the water for 5 hours. Then we check the water and if necessary we adjust the pH after 1 day.
